Announcement

ISFA Vienna 2011

8th Congress of the International Society for Apheresis
September 14th – 17th

University Hospital, Vienna - Austria

WELCOME MESSAGE ISFA 2011

Dear Colleagues, dear Friends,

On behalf of the local organizing team of the ISFA it is our pleasure and privilege to invite you to participate at the 8th ISFA Congress to be performed in Vienna from September 14th to September 17th, 2011.

Vienna with its great scientific and cultural heritage and a centuries old tradition of hosting people of various cultures certainly is predestined for organizing the ISFA Congress 2011. Located in the heart of Europe Vienna also provides unique possibilities to explore Austria and other eastern as well as western countries of Europe.

The ISFA congress will be organized together with several other societies dedicated to extracorporeal treatment modalities. This cooperation of various scientific communities will promote an interdisciplinary exchange of ideas and experience, an integration of basic research and clinical medicine. Furthermore, a special educational program (including the 3rd "Wiener Aphereseseminar") will be offered both for clinical scientist and for nurses in particular.

The congress will be located at the hospital of the Medical University of Vienna, which is easily accessible from all parts of the city by underground.

Present day Vienna is a cosmopolitan, dynamic city with a booming cultural and economic life. With its rich architecture, its famous opera house, numerous museums, the "Heurigen" wine taverns, an acclaimed Central European "fusion cuisine", Vienna can offer all participant of the ISFA Congress not only a high class scientific and educational program but also an extraordinary ambiance where you can relax, meet old and make new friends and exchange ideas.

We are cordially inviting all of you to the 8th ISFA Congress in Vienna, Austria in 2011.

Dr. Wolfgang Ramlow	President of the ISFA 2009–2011
Prof. Kurt Derfler	President of the ISFA 2011 Congress
Prof. Wilfred Druml	Vice-President of the ISFA 2011 Congress
Prof. Sabine Schmal dienst	Vice-President of the ISFA 2011 Congress

PRELIMINARY MAIN TOPICS of ISFA 2011

Scientific program

LDL-apheresis

different devices, long term outcome in homozygous and heterozygous familial hypercholesterolaemia
Lp(a) and apheresis procedures, clinical outcome in Lp(a) apheresis
Additional medical treatment in LDL-apheresis
Rheological investigations in LDL-apheresis

IgG-apheresis

acute humoral rejection, transplantation in the sensitized patient
in antibody mediated haemophilia
in bone marrow transplantation
in SLE resistant to conventional medical treatment
in neurological diseases
in sepsis
Apheresis registry

Liver replacement therapy

Photopheresis

Plasma-exchange

Rheopheresis

Zytapheresis

and so on ...

Educational activities

Technical requirements of various extracorporeal procedures
Immunological understanding of IgG-apheresis
Different options of LDL- and IgG-apheresis
Basics and therapeutic options of Photopheresis
